

## Manu Drawer Removal Instructions

### STEP ONE:

Remove 'alpine' tabs.

#### Note:

- There are **two** tabs to be removed for the **600mm** and **750mm, 900mm** models.
- There are **four** tabs to be removed for the **1200mm** models.

### STEP TWO:

Lift all 'Release Buttons' upwards simultaneously.

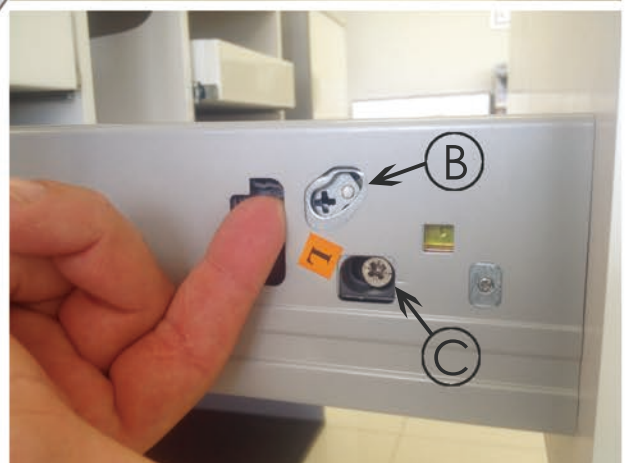

#### Note:

- There are **two** buttons to be lifted on the **600mm** and **750mm, 900mm** models.
- There are **four** buttons to be lifted on the **1200mm** models.

'Release Button'

- Ⓐ DRAWER REMOVAL
- Ⓑ DRAWER FRONT RELEASE
- Ⓒ DRAWER FRONT ADJUSTMENT

### STEP THREE:

Remove drawer.

#### Note:

- The **900mm** and **1200mm** models will require two people.

### REFITTING DRAWER:

*Most effective with two people*

*All four runners may not click automatically into place. In this circumstance manually bring the runners forward until you hear them click on.*
